Adell Cooperative

Adell Cooperative is a full service, single location, independent coop serving east central Wisconsin out of Adell, Wisconsin. It has a long history in the area, celebrating their 100th anniversary in 2017.

Adell Cooperative is a growing company that utilizes some of the most up to date equipment to service its members. In 2012 we constructed a new Agronomy center with computerized chemical mixing system. In 2016 we constructed a state of the art computerized feed mixing facility, and in 2017 updated the grain handling facilities to be more efficient.

At the present time we have the following internship opportunity:
Agronomy-crop scout/sales

These are the full-time jobs available:

Sales Agronomist
Custom Applicator- Operations

AgSource Laboratories Bio / About us:

AgSource Laboratories is a leader in environmental, food and agricultural laboratory analysis and information management services. Our dedicated crop consultants and agronomy specialists in Bonduel deliver over 100 years of combined experience. Services include analyses of soil, plant tissue, manure, fertilizer and water, as well as nutrient management planning (NMP) services, GPS soil sampling, GPS mapping, aerial imagery and crop scouting.

We use state-of-the-art resources and reliable expertise to consistently produce results our clients trust. We take pride in putting our years of experience to work in helping feed a growing world and safeguard a healthy environment for future generations.

List of Internship Opportunities

Field Service Technician internships:

Seeking to fill two positions to work with our field staff in providing GPS soil field sampling, NMP Data collection and some crop scouting during the growing season.

Crop Scouts:

Seeking to fill 2 to 3 crop scouting positions in central and north central WI. Scouts will work with our field scouting staff to provide scouting services in identifying insect, weed and disease identification. Maintain detailed records of observations and work with supervisors in communicating back to the farm the information observed.

Company Bio/About Us
For over 100 years, our goal at The DeLong Co., Inc. has been to provide information, products and services to the farming industry. In addition to being a grain elevator and major supplier of food grains domestically and internationally, we also provide seed, fertilizer and chemical inputs and services for growers in Wisconsin and Illinois. We offer delivery and storage of feed grains and seed products and also sell feed and seed manufactured for use in livestock feeds, pet foods and wild bird seeds at our mill in Clinton, WI. The DeLong Co. operates two warehouses that are used to wholesale and distribute various feed and pet products to dealers in Wisconsin, Illinois and Indiana.

At the time our business was founded, the principal crops grown by our customers were hay, wheat, oats, barley, malting barley and corn. Over a long period of time, our business has adapted and moved to fill the needs of local farmers. Corn became the dominant cash crop in our region and we began providing feed concentrates specially formulated for various types of livestock. We also added corn drying facilities, soybean facilities and more recently, vegetable and specialty Identity Preserved crop programs to our business.

Headquartered in Clinton, Wisconsin, our business operates locations around the U.S. and comprises five divisions of agricultural sales and service: agronomy, grain, seed, wholesale distribution and transportation. The DeLong Co., Inc. remains a family owned and managed organization. Current board of directors are 4th generation and our shareholders are 4th, 5th and 6th generation direct descendants of William E. DeLong. Fifteen DeLong family members of the 4th and 5th generation are employed within the company.

Start your Agronomy career as an Agronomy Intern, Agronomy Apprentice, Agronomist or Agronomy Sales Representative, helping our patrons utilize seed, fertilizer, and crop protection, plus the custom application services needed to maximize returns. You may also begin with Federated as a Full-time or Seasonal Agronomy Team Member, operating and maintaining large, modern application equipment and supporting product delivery as a CDL Driver.

Benefit programs are a critical part of your total compensation. Qualified, full-time employees are eligible for Medical, Dental, Vision, Disability and Life Insurance programs. We also provide an industry-leading 401k program and employee discounts. Our competitive paid time off policy is focused on providing you with the work-life balance you need.

Our cooperative has six agronomy locations across our territory: Albertville, Ogilvie, Isanti, Moose Lake and Rush City in Minnesota, and Osceola in Wisconsin. Every Federated agronomy location offers a full range of products and services, including custom application of fertilizer and crop protection products. To complete the package, our team of experts supply the expertise you need to make it all work out.

We are PROUD to be a cooperative! We believe in the “Power of One”.

- Purpose is to provide quality products & services
- Roots in the farming community
- We are a cooperative, so we are owned by our patrons
- We invest in our communities (scholarships, 4-H, Habitat for Humanity, etc.)
- Opportunities for promotion and internal career advancement
Company Bio

Insight FS is an agricultural and energy business, serving customers from 24 locations in Wisconsin and Michigan’s Upper Peninsula. Headquartered in Jefferson, Wis., Insight FS provides feed, agronomy, energy, agri-finance, seed and turf products and services, as well as grain marketing, to our patrons. While our name has changed a few times over the years, our service and attention to our customer’s day-to-day needs hasn’t.

The FS brand represents a standard of excellence for agricultural and energy-related products and it’s the people who represent the FS brand that set us apart. Always professional and dependable, our Insight FS specialists are trusted advisors who understand local needs. FS companies are part of the GROWMARK System and strive to be the best agricultural cooperative system in North America. We are always ready to do more to move operations forward and never stop asking, "What's next?"
