

ALCIVIA is a leading, member-owned agricultural and energy cooperative located in Wisconsin and serving customers in Wisconsin, Minnesota, Illinois, and Iowa. We provide expertise, service, and products in the areas of agronomy, animal nutrition, energy, and grain, and have a full portfolio of options for low-interest operating loans and input financing.

As a local, member-owned cooperative, the board of directors and management team of ALCIVIA realizes that our actions have a direct effect on our customers. We know the strength of your cooperative comes from the support of our membership, and we will always strive for mutual success.

### ***Internship Opportunities***

A lot of our internships for 2022 are filled as we begin filling them in the fall for the following summer but we still have a few slots available. We do have flexibility to offer a variety of different sales, operations, and office internships.

If interested in a 2022 internship, we recommend applying right away at [www.ALCIVIA.com/careers](http://www.ALCIVIA.com/careers) and searching "Internship" in the middle of the page.

### **Company Bio/About Us**

Allied Cooperative has a long and proud history serving mid-Wisconsin's farmers. With roots that date back to 1918, our co-op was formed when a group of farmers joined together in order to gain greater purchasing power and maximize their potential for success in their farming operations. By striving for continuous improvement and adapting to change, our co-op has been there for our members for over 100 years. That's a legacy we're proud of and one we plan to continue well into the next generation.

Our cooperative provides a wide variety of products and services including agronomy, grain, LP and refined fuels, auto parts, hardware, tires and convenience stores. We are focused on meeting the very highest of standards, exceeding customer expectations for quality products, service and delivery. And while we work hard to stay on top of cutting edge products and technology, we believe it is our people that set us apart.

Allied Cooperative has operations in operations in Adams, Arcadia, Blair, Galesville, Mauston, Mindoro, Plainfield, Plover, Tomah, West Salem, and Wisconsin Rapids.

### **Internship Opportunities**

*The DeLong Co., Inc.*

608-676-2255 • PO Box 552 • CLINTON, WI 53525 • [WWW.DELONGCOMPANY.COM](http://WWW.DELONGCOMPANY.COM)

### **Company Bio/About Us**

For over 100 years, our goal at The DeLong Co., Inc. has been to provide information, products and services to the farming industry. In addition to being a grain elevator and major supplier of food grains domestically and internationally, we also provide seed, fertilizer and chemical inputs and services for growers in Wisconsin and Illinois. We offer delivery and storage of feed grains and seed products and also sell feed and seed manufactured for use in livestock feeds, pet foods and wild bird seeds at our mill in Clinton, WI. The DeLong Co. operates two warehouses that are used to wholesale and distribute various feed and pet products to dealers in Wisconsin, Illinois and Indiana.

At the time our business was founded, the principal crops grown by our customers were hay, wheat, oats, barley, malting barley and corn. Over a long period of time, our business has adapted and moved to fill the needs of local farmers. Corn became the dominant cash crop in our region and we began providing feed concentrates specially formulated for various types of livestock. We also added corn drying facilities, soybean facilities and more recently, vegetable and specialty Identity Preserved crop programs to our business.

Headquartered in Clinton, Wisconsin, our business operates locations around the U.S. and comprises five divisions of agricultural sales and service: agronomy, grain, seed, wholesale distribution and transportation. The DeLong Co., Inc. remains a family owned and managed organization. Current board of directors are 4th generation and our shareholders are 4th, 5th and 6th generation direct descendants of William E. DeLong. Fifteen DeLong family members of the 4th and 5th generation are employed within the company.

**Jay-Mar, Inc.**

2130 Jay-Mar Road • P.O. Box 429 • Plover, Wisconsin 54467-0429

Tel: 715-341-3445 • Fax: 715-341-4106

Jay-Mar, Inc. begins its 52<sup>nd</sup> year as a family-owned fertilizer, chemical and seed dealer in central Wisconsin. We serve farmers within a 30-60 mile radius of Plover. We have 33 full-time employees and add another 30 seasonal employees each spring. Most of the full-time employees have been here at least 10 years, a quarter of the staff have been here at least 20 years.

Our market is in a heavily-irrigated area that produces potatoes, peas, snap beans, sweet corn and other vegetables, as well as the, expected in Wisconsin, dairy and cash crops. In addition to the typical fertilizer dealer functions, we also produce liquid fertilizers that are sold, wholesale to other agricultural dealers and to golf course, landscaping and arborist supply companies. We have a retail store as well that sells bird seed, pet foods, lawn & garden supplies, small animal foods and wildlife plot supplies. We also do some crop scouting and offer drone services.

*"Your Total Agri Supplier"*

## About us

La Crosse Seed is an industry-leading specialty seed company that has paired an unmatched portfolio of forage, cover crop and turf seed with knowledgeable and experienced sales and support staff since 1919. We distribute premium products to ag and turf retailers through dealers nationwide.

We maintain a diverse portfolio of exclusive brands with the latest genetics for consistent performance in the field and bring innovative, effective, customizable marketing solutions to drive awareness and sales. We also provide product training, technical guides and agronomic support.

## Company Highlights

- Rooted in La Crosse, WI since 1919
- Five facilities across the Midwest, each with location leaders, warehouse staff and truck drivers
- Expert agronomic sales and support staff nationwide
- Backed by DLF, a global seed and plant breeding company

## Mission

Our mission at La Crosse Seed has and will continue to be customer driven. We maintain integrity, dependability, and the ability to embrace change as our core company values. It is with those values that we commit to continuing to provide a combination of innovative quality products and expert knowledge to seed success within the forage, turf, and cover crop markets.

### **Agronomy Research Intern - Waupaca, WI**

#### **Position Summary:**

The Agronomy Research Intern will assist the Research Agronomist and the Legacy Alfalfa Team at the Legacy Seeds - Research & Learning Center in Waupaca, WI. The candidate will be exposed to every aspect in operating and maintaining a research farm focused on corn, soybean, and alfalfa production. The candidate will assist the alfalfa team with a variety of tasks associated with developing new and improved alfalfa varieties.

#### **Supervision:**

Reports to the Research Agronomist; takes direction from the Legacy Alfalfa Team.

#### **Responsibilities:**

- Assist in organizing, establishing, maintaining, and evaluating field research plots across WI
- Ride along with Research Agronomist to provide customer support on product performance throughout the state
- Aid in planning and hosting plot tours at the Research & Learning Center and throughout the state
- Compile observation data using Microsoft 365 programs
- Assist in upkeep of the Research & Learning Center building and grounds.
- Safely operate equipment and tools

#### **Qualifications:**

- Pursuing an associate's or bachelor's degree, preferably in agronomy, agricultural business, or related field of study
- Must hold a valid driver's license and have a good driving record
- All applicants must be eligible to work in the U.S.
- Flexible hours and/or extended hours may be required
- Ability to move, lift, and carry boxes, tubs, and tools weighing 50-60 lbs. across uneven ground

#### **Desired Skills:**

- Strong communication, leadership, and time-management skills
- Attention to detail and ability to work without supervision
- Give and receive feedback to collaborate with others
- Ability to adapt to changing work environments
- Agricultural background is beneficial, but not required

**If you have any questions about this position or how to apply, call Mike Sankey at 715-340-0862**

## **Who we are**

As agriculture continues to rapidly change, we strive to provide innovative crop solutions, quality nutrient products, knowledgeable staff, and dependable service to satisfy our grower's needs.

We sell only the best liquid fertilizers and starters under the Liqui-Grow brand. We pioneered the development of the "pipe reactor" to produce clear polyphosphate 10-34-0, N-P-K starter grades, and SLX high potash, suspension-grade analyses. We add micronutrients (Zn, B, and Mn), sulfur, and crop protection products to a mixture of these concentrates as required by crop, soil test & type, crop removal, and field conditions.

We are wholly committed to the 4 R's and provide farmers with the right fertilizer, at the right rate, in the right place, at the right time.

We have been family owned and operated since 1958 and have grown over the years with continuous field studies and new products.

## **Job Opportunities**

We have many full-time jobs and internships available throughout our locations. Descriptions of these opportunities can be found at our website. <https://www.liqui-grow.com/employment/>

You can also learn more about our company at our Facebook page.  
<https://www.facebook.com/LiquiGrow/>

United Cooperative is a full-service cooperative offering feed, grain, agronomy and energy products to more than 20,000 members from Wisconsin, Illinois, Iowa, Minnesota and the upper peninsula of Michigan. United Cooperative exists to provide its patron members (farmers and consumers) with the best possible value and return on investment, and aims to provide all its customers with professional, exceptional service. The United Cooperative headquarters is located in Beaver Dam, WI. United Cooperative is Wisconsin's larger farmer-owned grain & farm supply cooperative. United Cooperative is the majority owner and managing member in two ethanol production facilities and an investor in a third.

United Cooperative offers hands on Agronomy internships at most of its 17 Agronomy service centers. These internships will allow the students to have access to scouting, field diagnostic work, tissue testing, soil testing, sales & marketing opportunities, and the opportunity to work one on one with an experienced field agronomist.

United Cooperative has a variety of Full Time Job's available.
